¹ Courses / topics listed are anticipated but subject to change.

² Under new Rhode Island Department of Health regulations, any practitioner who holds a DEA number and prescribes a Schedule 2 opioid is required to complete 8 hours of CE in topics determined by the department. [You must meet this specific training requirement by March 22, 2019.](#)

[Saturday, March 2, 2019](#) has been developed to ensure you meet this requirement. We strongly urge all optometrists to attend this informative day of education. [Failure to meet this requirement will jeopardize your current license](#) and restrict your ability to maintain the highest level of licensure in our state and, more importantly, provide the highest level of care for your patients. [Click here](#) to read the regulation.
